

SOCIALIST EQUALITY PARTY PUBLIC MEETING

SEP  
2019

# THE JAILING OF ASSANGE AND MANNING — AN ATTACK ON THE WORKING CLASS

The attempt to prosecute Assange, for lawful publishing activities, is nothing less than a move to abolish freedom of the press and free speech, and to create a precedent for the suppression of growing opposition to militarism, social inequality and authoritarianism. It must be opposed by all workers, students and young people.

The SEP rallies and meetings will demand that the Australian government immediately use its legal discretion and diplomatic powers to secure Assange's safe passage to Australia, with a guarantee against extradition to the US. The events will be aimed at building the mass movement that will be required to compel the government to fulfill these elementary obligations.
