The campaign to defend Julian Assange and Chelsea Manning is the spearhead of the defence of democratic rights and of the fight against the danger of imperialist war.

These class war prisoners are being persecuted because they exposed US war crimes and those of its allies, including Australia. The attack on Assange and Manning is an attack on all journalists and whistle-blowers and on the working class as a whole.

The right to free speech and freedom of the press can only be defended by mobilising the working class on a socialist program.
